

## **Learning objectives**

This list identifies the goals for the **minimum skills and knowledge** required to perform the care appropriate to your child. You and the healthcare team may use it as a guide and checklist for learning.

<u>Instructions</u>: When the learning is satisfactory to the nurse and to the parent, both will write their initials in the table and put their name and signature at the end where indicated.

| The family/caregiver (and child, if appropriate) know:   | Date | Initials<br>Nurse | Initials<br>Parent |
|--|------|-------------------|--------------------|
| characteristics of the child's tracheostomy  |      |                   |                    |
| advice on the activities of daily living (clothing, nutrition, hydration, bathing, sleep,                        |      |                   |                    |
| activities and transportation, communication)  |      |                   |                    |
| ways to evaluate the child's respiratory condition and the signs of respiratory distress                         |      |                   |                    |
| ways to maintain humidity at an adequate level   |      |                   |                    |
| general strategies to avoid irritants in the air and to prevent infection  |      |                   |                    |
| potential problems and recommended solutions   |      |                   |                    |
| CPR and procedures in case of an emergency   |      |                   |                    |
| equipment and medical supplies required for daily and emergency care   |      |                   |                    |
| reasons for consulting the healthcare team   |      |                   |                    |
| all the steps involved in tracheostomy care (tracheostomy skin care, changing the                                |      |                   |                    |
| dressing and the inner cannula, if present)  |      |                   |                    |
| all steps involved in changing of tracheostomy ties  |      |                   |                    |
| all steps included in the changing of a simple tracheal cannula  |      |                   |                    |
| indications for administration of aerosolized medication via tracheostomy, if pertinent                          |      |                   |                    |
| all steps included in the administration of medication by small volume nebuliser via tracheostomy , if pertinent |      |                   |                    |
| all steps included in the administration of medication by metered dose inhaler with                              |      |                   |                    |
| spacer via tracheostomy, if pertinent  |      |                   |                    |
| maintenance and cleaning of all material used for care/treatments  |      |                   |                    |
| Comments:  |      |                   |                    |

| The family/caregiver (and child, if appropriate) <u>safely</u> and <u>competently</u> <b>master</b> : | Date | Initials | Initials |
|---|------|----------|----------|
|   |      | Nurse    | Parent   |
| assessment of the child's respiratory condition   |      |          |          |
| actions to be taken in the event of respiratory distress  |      |          |          |
| CPR and procedures in case of emergency   |      |          |          |
| all the steps involved in tracheostomy care (tracheostomy skin care, changing the                     |      |          |          |
| dressing and the inner cannula, if present)   |      |          |          |
| all steps involved in changing of tracheostomy ties   |      |          |          |
| all steps included in the changing of a simple tracheal cannula                                       |      |          |          |
| all steps included in the administration of medication by small volume nebuliser via                  |      |          |          |
| tracheostomy , if pertinent   |      |          |          |
| all steps included in the administration of medication by metered dose inhaler with                   |      |          |          |
| spacer via tracheostomy, if pertinent   |      |          |          |
| maintenance and cleaning of all material used for care/treatments                                     |      |          |          |
| Comments:   | •    |          |          |

| The family/caregiver (and child, if appropriate) take into consideration:              | Date | Initials<br>Nurse | Initials<br>Parent |
|--|------|-------------------|--------------------|
| the preparation of the child, the parent and the environment before beginning the care |      |                   |                    |
| the pediatric approach for the required care   |      |                   |                    |
| the degree of the child's autonomy in participating in the treatment                   |      |                   |                    |
| the need to make adjustments to the care procedures when necessary                     |      |                   |                    |
| the support necessary to the child before, during and after the treatment              |      |                   |                    |
| Comments:  |      |                   |                    |
|  |      |                   |                    |
|  |      |                   |                    |
|  |      |                   |                    |
|  |      |                   |                    |

| The family/caregiver (and child, if appropriate) have <b>received and understand</b> the following information: | Date | Initials<br>Nurse | Initials<br>Parent |
|---|------|-------------------|--------------------|
| the medical supplies and equipment distributors contact information   |      |                   |                    |
| resources available to them   |      |                   |                    |
| the date and place for the next appointment if required   |      |                   |                    |
| access information for resource people, as needed   |      |                   |                    |
| the number to call in case of emergency   |      |                   |                    |
| Comments:   |      |                   |                    |
